ETL GLOBAL

THE WORLDWIDE PROFESSIONAL SERVICES NETWORK

- **ETL Global** is an **interdisciplinary network of professionals** and the **international business platform for ETL.**
- At ETL Global, **worldwide partners share their knowledge, skills and experiences**, supporting each other in close collaboration and jointly serving clients in their international business.
- The ETL Global network is constantly growing, which offers **enormous opportunities and synergies for both, clients and professionals.**
- Based on **long-term and durable, cooperative personal relationships** among the professionals within ETL Global, communication channels are short even over long distances.

ETL GLOBAL VALUE PROPOSITION

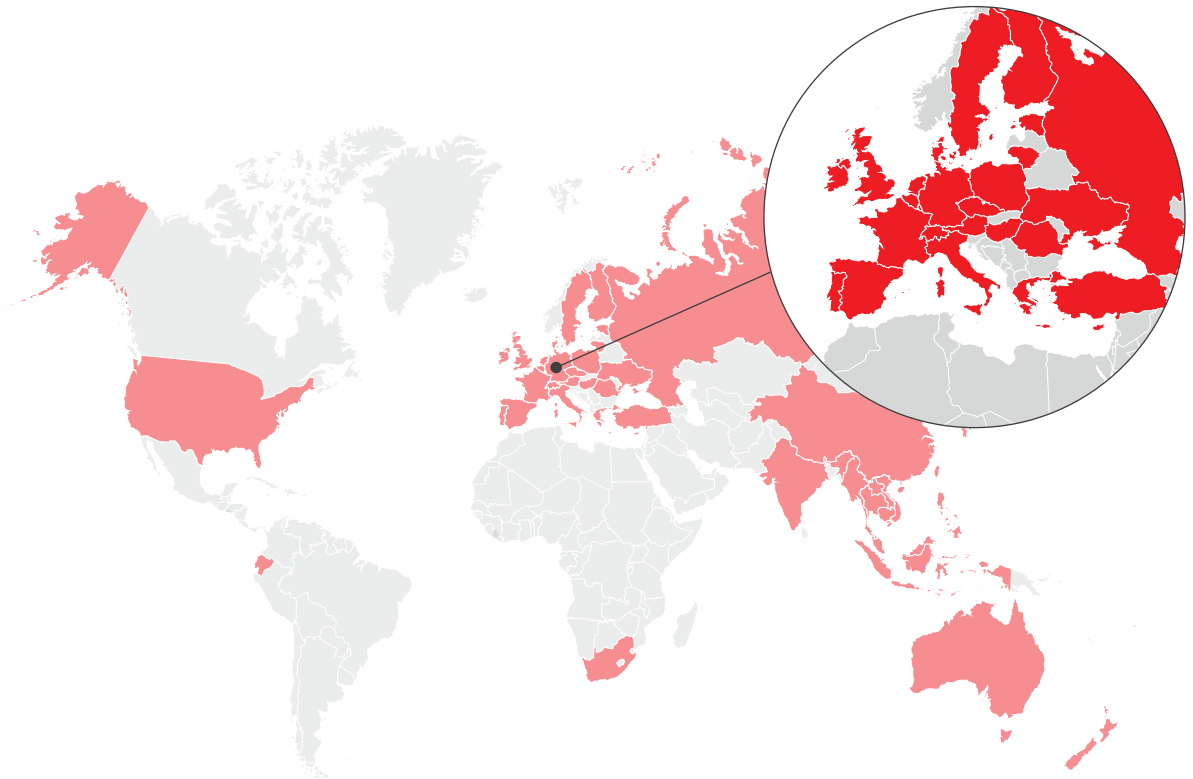

- ETL Global offers a **highly personalised service and individual solutions** with a special focus on the demands and expectations of SMEs.
- ETL Global partners provide cross-border services **more efficiently** than consulting companies without integration into a network.
- ETL Global creates **interfaces for international know-how transfer** in the fields of tax advice, auditing, legal and management consulting for SMEs and their advisers.

**Being close to our
clients is the core
ETL promise.**
